Health Board.

Colebrook N H.

We the undersigned, Health Board of Colebrook, respectfully submit our fourth annual report. No cases of Typhoid fever or Measles have occurred during the past year within the town limits. During the year, several cases of Whooping Cough of moderate severity, and two cases of Scarlet Fever, have been reported.

The unfortunate outbreak of two cases of Small Pox in the family of Augustin Covell, and two cases of Varioloid in the Vallie family, have of necessity increased the Health Board expenses for the past year as it was necessary to provide watchmen at the Covell house in order to maintain an effectual quarantine of the premises, and to provide assistance for the Vallie family. Owing to the rigid quarantine measures instituted in these two families, and the thorough manner in which the premises were fumigated and all bed clothing destroyed, we have reason to think that no further trouble will come from these cases.

We would respectfully recommend the selection of a more suitable site for a public dump, where all the refuse can be taken and disposed of as the present site is situated too near the highway, and at times is a menace to public health, and we would also recommend that a sewer be constructed, leading from near the Colebrook House to a point in the brook below the Dunn blacksmith shop, so that residents of that section of the village can enter it, and thus dispose of their sewerage in a proper manner.

Respectfully submitted,

Edwin A. Cook M. D.	}	Health Board of Colebrook
Edward E. Twombly M. D.		
D. S. Pease

The town has increased its net indebtedness during the past year to the amount of \$ 583 37. This is due the extraordinary expenses of the Board of Health, consequent upon the small pox at Angustin Covells. The utmost care was exercised by the board of health to prevent the spread of the disease and it would now seem that their efforts have been successful. If there is no further spread of the disease the money has been well invested.

The expense of breaking roads in winter has become a very heavy burden, costing nearly as much as the repairs in summer, and it seems as if some method ought to be devised that would curtail this expense
